Hi Mike,

I just returned from vacation. By now you have hopefully received Olin's letter of Nov. 8th confirming that they will provide bottled water to the 2 residents.

Please do your best to keep this information within the Town departments. I do not want this information to become public until the 2 property owners have been informed by EPA that we now recommend they not consume their water and that Olin will provide bottled water. I expect such letter to be mailed next week. I may also try to reach them by phone today if I can track down their phone numbers.

Consequently, I do not plan to discuss this decision at Monday's public meeting unless I connect with the owners first.

I appreciate your cooperation,  
Jim
